**Subject:** government control of iras and 401 ks

Sir

We the American people will not stand by and watch you screw this up also. We do not trust you with control of the Government. Do you think we will stand by and watch you get more of our hard earned money to waist and bail yourselves out of the fix you have got us into,(Get Real).Your political futures are at stack and If you try to shove this down our throats too. You will pay come election time. In God we Trust. Not you People who claim to have our interest at heart. Your wallet is the only thing you care about. Get real
